## DETAILED ACTION

### *Election/Restriction*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 12, drawn to a chemical compound, classified in class 514, subclass 721, for example.
- II. Claims 13-20, drawn to a method of preparing a compound via solvent extraction of *Ecklonia cava* followed by fractionation/separation/recovery steps, classified in class 424, subclass 725, for example.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the chemical compound of Group I does not require that it be prepared by the herbal extraction process of Group II and, further, can be made by chemical synthesis.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
